Top 7 technology trends to look forward to in 2018

In the business world, you're only as good as the technology you use. The rapid evolution of technology and its impact on businesses and professions will not slow down anytime soon. Be it Artificial Intelligence (AI) or Machine Learning, IoT (Internet of Things) or Augmented Reality, 2018 is surely going to be the game changer in stabilizing these all. Here are the top 7 [Read More](#)

Is your BI Software giving you a better ROI?

Do you know many organizations just 'adopt' Business Intelligence software? Yes, the software which is meant to provide you insights and analytics of your business is itself not successful in making your business prosper. The reason? Like any investment, a BI implementation project needs to be justified and once it goes live the impact has to be monitored and [Read More](#)
