TRANSFORM YOUR BUSINESS DIGITALLY

BRING PEOPLE, DATA AND PROCESSES TOGETHER TO CREATE VALUE FOR YOUR CUSTOMERS AND GAIN A COMPETITIVE ADVANTAGE.

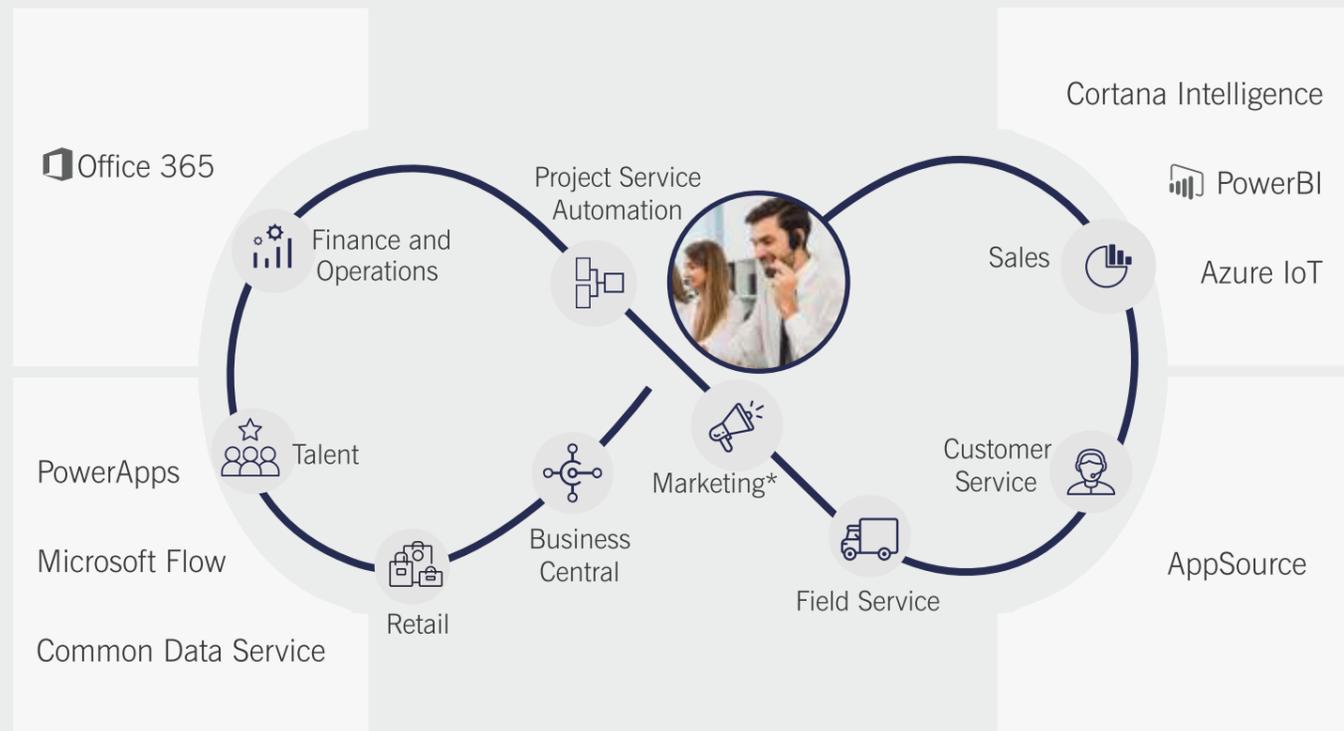

Today's digitally-led, rapidly evolving business scenarios pose serious challenges for enterprises across industries. With all the innovations happening on social media, mobile, cloud, analytics, and IoT at a rapid pace, it is inevitable for businesses to be ready for their impact.

Microsoft business solutions are designed to get you business up and running quickly and help you grow efficiently as per your needs. Microsoft has everything you need to run a business seamlessly, in one place – ERP CRM, Business Intelligence, Productivity Tools, Cloud, IoT and AI.

MICROSOFT'S INTELLIGENT CLOUD PLATFORM

Microsoft Dynamics 365 is an intelligent cloud platform with everything you need to modernize your business systems and unify operations. Move away from the complexity and traditional ERP and CRM systems, and say hello to the business transformation with Dynamics 365. It has deep integrations to Office 365, Power BI, Power Apps and the extensive Microsoft cloud portfolio with AI and IoT capabilities.

Microsoft Dynamics 365

“Quick to implement, easy to use, and has power to achieve your ambition. Microsoft Dynamics 365 provides a seamless experience across applications and devices—start with what you need today and easily adapt as per your needs”

Intech is well known for their expertise in manufacturing systems and for having provided solutions in Foundry Industry. They have worked with us in arriving at the most comprehensive and easy to use solution based on Microsoft Dynamics AX. We are happy with their approach to the implementation and their excellent support.
